Opening Day-First Day of Classes

---

## Important Announcement

Monday, September 3<sup>rd</sup> is Labor Day (no classes)

Tuesday, September 4<sup>th</sup> is Organizational Day for staff (no classes)

Island View High School has been allocated two variance days by the Department of E.E.C.D. on September 5<sup>th</sup> & 6<sup>th</sup> to provide school administration and staff more time for opening procedures and professional development (no classes).

## Invitation to participate on the School Advisory Council (SAC)

Parents/Guardians want to know what's happening in their children's schools, and take a hands-on approach to education. School Advisory Councils (SAC) are intended to give parents/guardians a say in what's going on at school, from policies to extra-curricular programs, fundraising and more.

School Advisory Councils (SAC) bring partners together to make decisions and solve problems in the best interest of student learning. All partners on the SAC have a voice so that the needs of students are represented and the school is responsive to the community it serves.

The fundamental purpose of the SAC is to ensure that all students receive the best possible learning opportunities by engaging partners in an ongoing process of problem-solving and shared decision-making.

If you are from the Island View High School community and interested in becoming a member of our School Advisory Council, please email us at [ivh@hrsb.ca](mailto:ivh@hrsb.ca) by June 22.

### Student Fees

Student fees are collected to provide for many activities and services. The funds are used to support field trips, and co-curricular activities. The money may also be used to fund student council and student council activities, student leadership development and in school presentations. All students are expected to pay a student fee which entitles the student to an ID card, and students' council activities. A student's ID card is used to access any school function such as dances, sporting events and spectator events.

The single payment will be collected the first two weeks of school in September. Cheques are to be made payable to: [Island View High School](#). Cash is also acceptable and a receipt will be issued.

#### Total Student Fees=\$40.00 (Breakdown)

Field Trips-\$10.00

Co-Curricular-\$30.00

### In the Community

#### HOST AN INTERNATIONAL STUDENT

Contact, Melissa Alexander

[Malexander@hrsb.ca](mailto:Malexander@hrsb.ca)

#### Seeking Coaches

Island View High School is actively seeking coaches for the 2018-2019 athletic season for both guys and girls teams. Island View High School teams will compete in NSSAF Division 3 programs for the 2018-2019 season.

All selected coaches must complete a **Keep the School in School Sport module, Criminal Records, and Child Abuse Registry checks**. Previous coaching experience coupled with NCCP sport related courses is preferred. Please send expressions of interest to Director of Athletics, Nigel Mailman - [nmailman@gnsps.ca](mailto:nmailman@gnsps.ca)

## Island View High School: Status Report from David Webber (June 6)

IVHS Administration and the Halifax Regional Centre for Education met with David R. Webber, P. Eng; Project Manager, Nova Scotia Department of Transportation & Infrastructural Renewal who confirmed we are committed to a September opening.

Island View High School is a new 3-storey 78,575 square foot state-of-the-art high school. It is designed to LEED (Leadership in Energy and Environmental Design) standards, and is expected to achieve LEED Silver designation.

The building will be ready for occupancy in time for the September 2018 school year. Construction work is proceeding to meet this occupancy date.

Outside, brickwork and siding is being installed. Later this summer, the landscaping will be completed and the driveways and parking areas will receive their final coat of asphalt.

Inside, drywall and painting is being completed, flooring is being installed, and cabinets and millwork are starting to roll in. Ceramic wall and floor tile is being installed.

The gymnasium wood floor has been installed, lines painted, and clear-coated. Furniture has been selected and ordered.

Installation of the building's mechanical and electrical systems is ongoing in preparation for commissioning, testing, and training for the school's operations staff. Work on the elevator is ongoing in preparation to having it commissioned and certified.

Water and air quality is a priority. To that end, all products (wall and floor materials, furniture, etc.) and installation materials (paints, adhesives, etc.) were scrutinized to ensure that each was low to no odor and met LEED standards. Tests will be done prior to occupancy to confirm that water and air quality are within acceptable guidelines.

Following occupancy, there will be a one year warranty on the building. During that period, the project team: contractor, building designers, Transportation and Infrastructure Renewal, and HRCE will all be monitoring the building. They will be prepared to address any issues and answer any questions.
